

Facts sheet

Contributing towards the economic prosperity through pioneering technology and uplifting the society

- **SLT Group - About SLT** - <http://www.slt.lk/en/about-us>
 - SLT is the **No. 1 integrated ICT solutions provider** in the country. Managing a **Quadruple player** (combining the triple play service of broadband Internet access, television and telephone with wireless services).
 - Being the catalyst to drive the nation towards a Smart Sri Lanka in par with developed countries.
- **Technology leadership** towards connected Sri Lanka, e-Sri Lanka or SMART Sri Lanka concept
 - We are the **first** mover in to the voice, data, enterprise solutions and IPTV segments in Sri Lanka.
 - Global connectivity established by connecting Sri Lanka to the globe by investing and partnering with first SEA-ME-WE international cable system in the year 1993.
 - Thereafter continued investments in to SEA-ME-WE 2, 3, 4 & 5 moving to copper to Latest fibre optic 100G Technology.
 - In 2003, with SLT launching its Broadband Internet service through ADSL technology, country began to be connected to the world & Data revolution happened in the country.
 - We have brought internet experience starting from 64 Kbps in 2003 to 100 Mbps today.
 - **Group is confident and further strengthening country's broadband foot print with enhanced coverage.** Also we have deployed complete range of world-class Broadband technologies such as ADSL 2+, VDSL 2, HSPA ~ DC-HSPA+, Fibre (FTTH), Carrier grade Wi-Fi network and both fixed & mobile 4G/LTE.

- **We have commenced aggressively rolling out its Ultra-Fast Broadband connectivity options including Fibre, wireless 4G/LTE across the country.**
- SLT launched its own **cloud** brand “**AKAZA**” which is a fully fledged cloud platform that enables diverse businesses ranging from top enterprises, government institutions, small and medium sized enterprises (SMEs) and micro level business organizations.
- Facilitating the **transformation** into Smart Homes, Smart Offices, Smart Cities with **future technology** is our next step.
- Being the leading ICT solutions provider, how SLT, caring the country’s **enterprises and SMEs** sectors to boost country’s economy
 - We are providing customised total solutions including **core ICT infrastructure and cloud platform** to run their businesses by gaining competitive advantage. To improve efficiency, productivity, reduce operational costs, time & costs saving for both internal & external ...etc.
 - SLT’s **Intelligent Solutions** are aimed at equipping local businesses with the full range of ICT solutions to help succeed in the global arena. Speed, connectivity and security are key demands businesses make and SLT’s wide portfolio of services is perfectly poised to meet and exceed these expectations. Our comprehensive array of services is helping organisations to blaze ahead with stronger convergence capabilities, extended reliability, improved scalability, flexibility and cost effective implementation.
 - 100% of Business Today top 25 companies
 - 99% of LMD top 100 companies
 - 99% of Colombo Stock Exchange
 - 100% of public sector institutions **are our long term customers**
 - We have empowered booming **KPO/BPO** industry in the country
 - With our Cloud facilities, Enterprises do not need to invest on Own ICT network infrastructure; systems or licences in future but SLT will centrally manage all those

things on behalf of them. This will cut down their ICT budgets drastically, enabling them to invest more on facilitating their customers.

- **National Backbone Network Services (NBN)** - As the sole National Backbone Network (NBN) provider, SLT has deployed an islandwide fully secured fiber network to fulfill domestic transport requirements of service providers. At present, our NBN covers 100% of the 168 electorates around the country, and we are working towards making NBN connectivity available to all divisional secretariats. Eliminating historic legacy platforms, the Backbone Network will cascade to a reduction in the cost of maintenance of these aging platforms, improved efficiencies, faster service delivery, increased speed and performance, all implemented with ultimate service excellence for domestic operators. SLT as the NBN operator, will design, build and operate the network, offering wholesale services to domestic operators on an open access, equivalent basis, empowering domestic operators to offer retail services to consumers.
- We have created employment opportunities for more than 10,000 employments. To pay their salaries, wages and other benefits we have spent over Rs. 110 billion during past 16 years (1998~2014). After the year 1998, we have employed over 4500 young job seekers. We are the largest employer in Telecommunication industry in Sri Lanka.
- Overall, SLT Group has completed investments during 1997~2014 after privatisation, Rs. 221 billion for development of national ICT infrastructure. This amount is almost equals to 19% of Total Foreign Direct Investments (FDIs) to Sri Lanka During past 10 years. Making economic contribution in total more than Rs. 415 billion.
- Enriching Lives of People (*Numbers you can omit in this area*)
 - Empowering nation through Knowledge Integration
 - Training opportunities at SLT (2009- 2015) - Internal Training – **28,694 Training Weeks**
