What is sltgo

sltgo will create two Wi-Fi networks in your home broadband router, the private one to be used by you and another for public sltgo consumers. The number of people who can use your home hotspot at a time is limited and subject to a maximum speed limitation giving priority to your private network, so your broadband experience will remain almost the same as before even after subscribing to this solution.

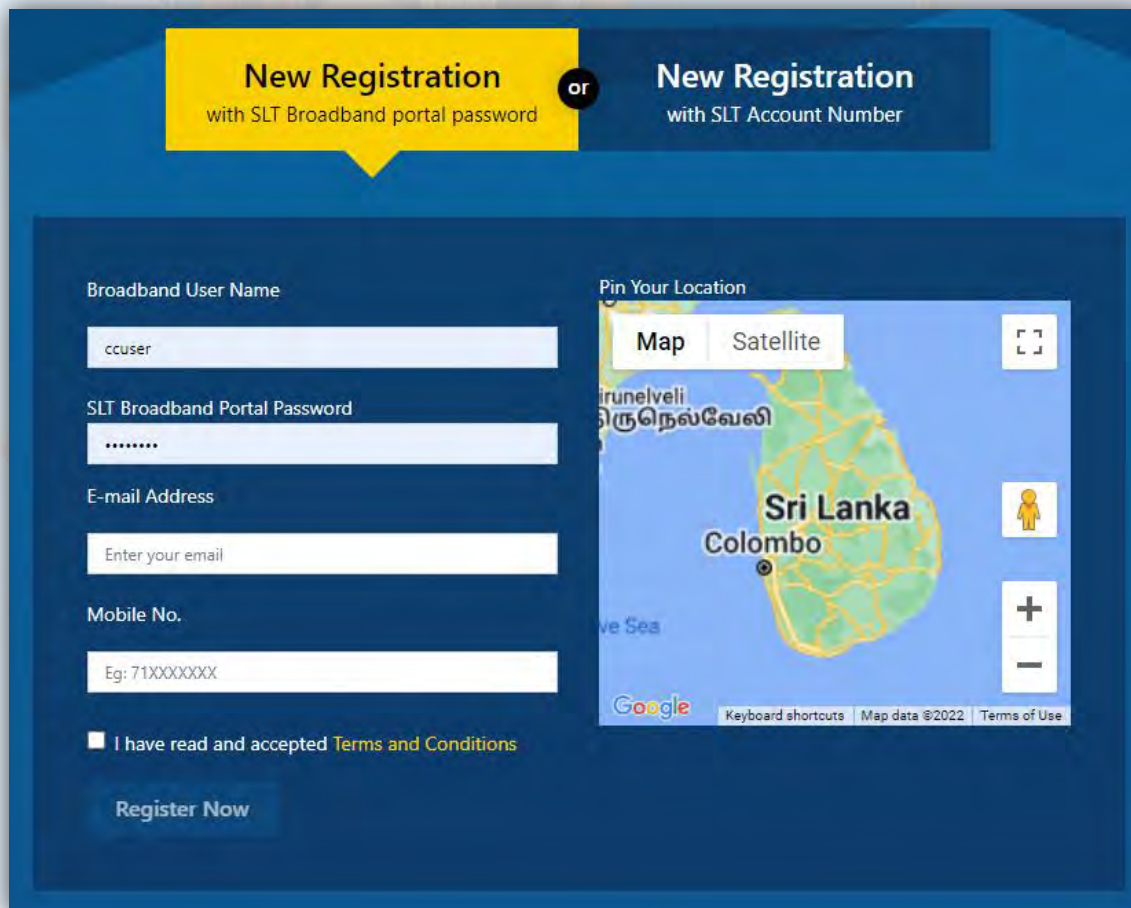

How to Activate sltgo

- If you buy a new connection from SLT this solution will be automatically added to your product and subscription free of charge.
- If you are an existing SLT customer, please use below link to [activate online or call 1212.](#)
- Online activation link: <https://slt.lk/go/register>

How to activate Online

- Go to the activation link and use your Broadband credentials or Account number to register for the service
- Activation link : <https://slt.lk/go/register>

The screenshot shows a registration form with two options for new registration. The first option, highlighted in yellow, is 'New Registration with SLT Broadband portal password'. The second option is 'New Registration with SLT Account Number'. The form includes fields for 'Broadband User Name' (containing 'ccuser'), 'SLT Broadband Portal Password' (masked with dots), 'E-mail Address' (with placeholder 'Enter your email'), and 'Mobile No.' (with placeholder 'Eg: 71XXXXXXX'). There is a checkbox for 'I have read and accepted Terms and Conditions' and a 'Register Now' button. A map of Sri Lanka is also visible, showing the location of Colombo.

Option 01

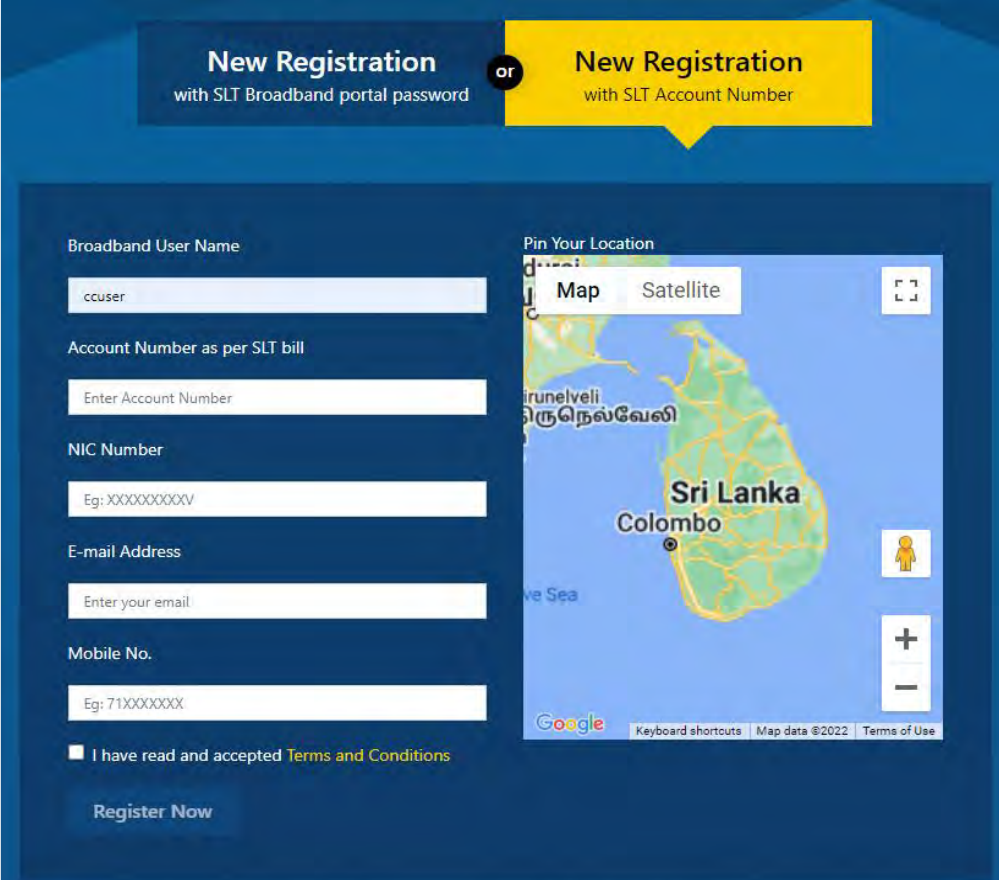

Here you can register for the [sltgo](https://slt.lk/go/register) service through slt Broadband Portal Username & Password

Option 02

- Go to the activation link and use your Broadband credentials or Account number to register for the service
- Activation link : <https://slt.lk/go/register>

Option 02

Here you can register for the sltgo service through SLT Account Number

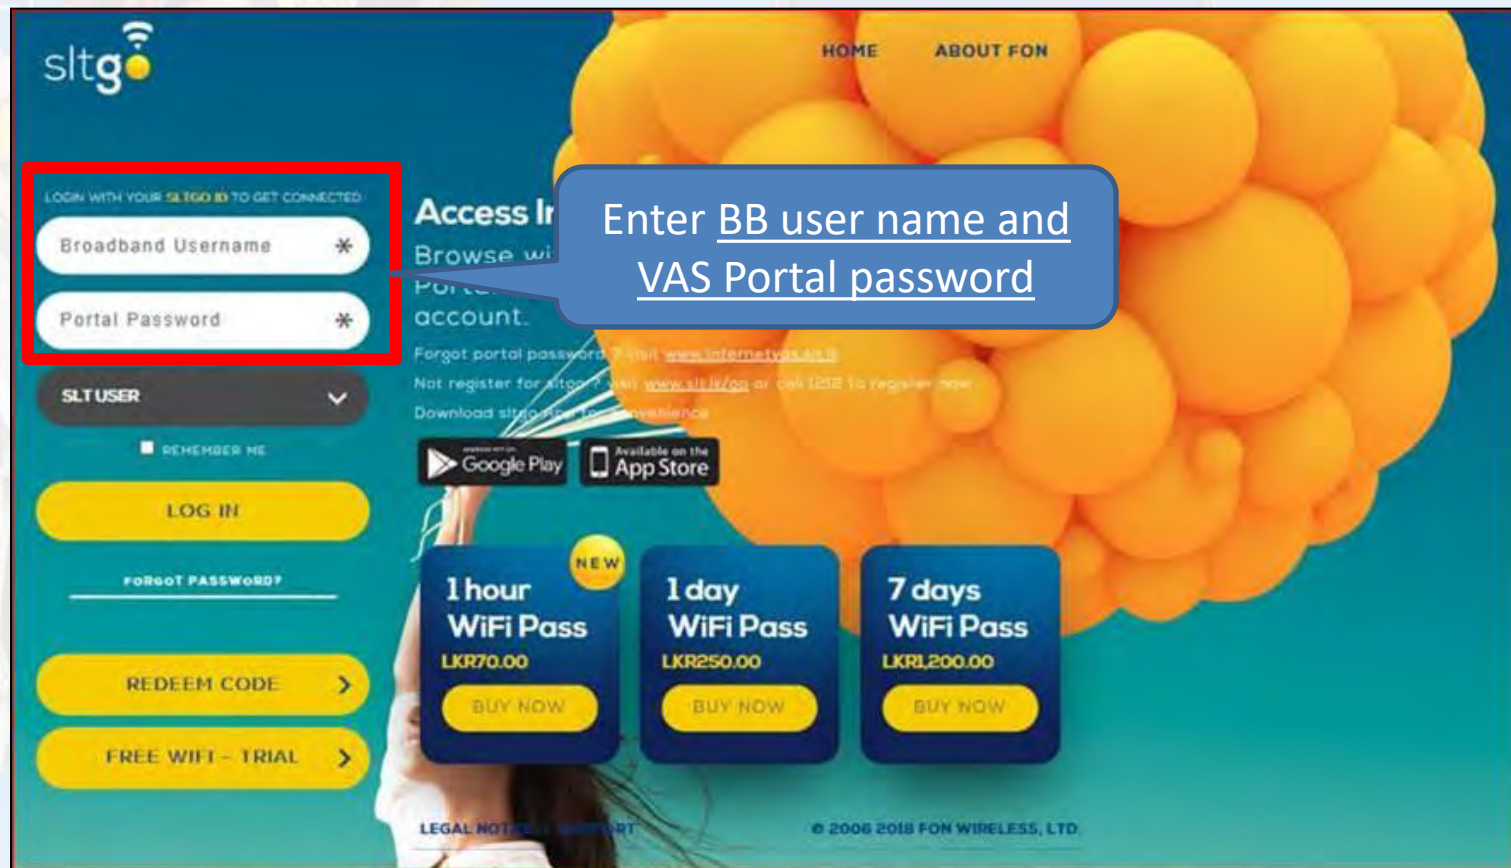

The screenshot shows a registration form with two tabs: "New Registration with SLT Broadband portal password" (selected) and "New Registration with SLT Account Number". The form includes the following fields:

- Broadband User Name: Input field with "ccuser" entered.
- Account Number as per SLT bill: Input field with "Enter Account Number" placeholder.
- NIC Number: Input field with "Eg: XXXXXXXXXV" placeholder.
- E-mail Address: Input field with "Enter your email" placeholder.
- Mobile No.: Input field with "Eg: 71XXXXXXX" placeholder.

Below the fields is a checkbox labeled "I have read and accepted Terms and Conditions" and a "Register Now" button. To the right is a map titled "Pin Your Location" showing Sri Lanka with Colombo marked. The map includes "Map" and "Satellite" options, a person icon, and zoom controls. At the bottom of the map are "Google", "Keyboard shortcuts", "Map data ©2022", and "Terms of Use" links.

How to connect to community Wi-Fi

- After registration customers can connect to any “sltgo” SSID and use their SLT broadband credentials in the captive portal to enjoy the services.

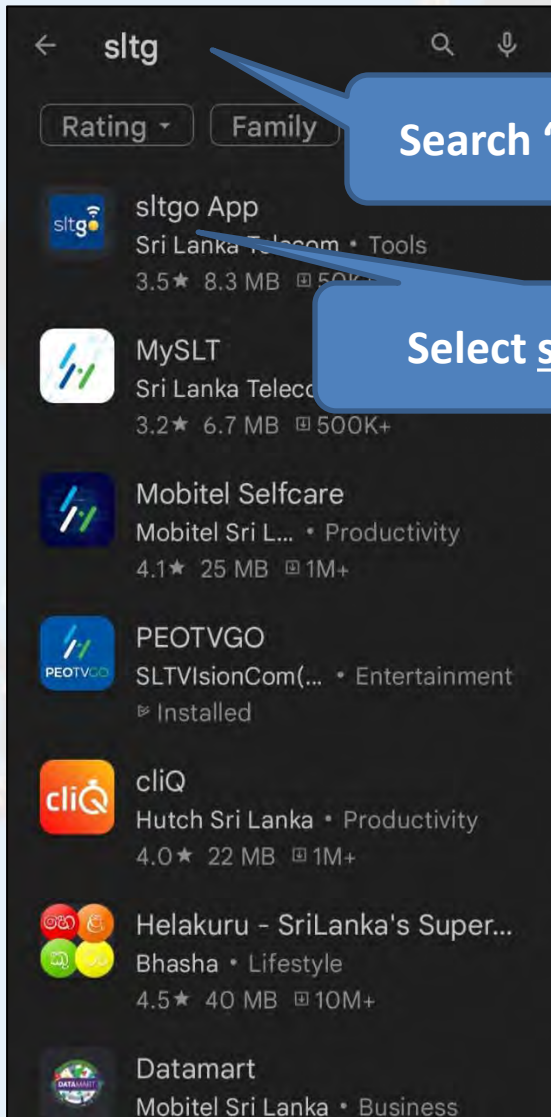

What is sltgo App

- [sltgo App](#) is a free application available for Android and iOS devices.
- This offers you the possibility for:
 - ✓ Get automatically connected to a Wi-Fi hotspot
 - ✓ Save your favorite Wi-Fi hotspots so you can find them even you are offline
 - ✓ Receive a notification when you are connected to a Wi-Fi hotspot
 - ✓ Access sltgo hotspot locations on the go
